## Fehlpaarung zwischen *Rana temporaria* und *Salamandra salamandra* mit tödlichem Ausgang

MICHAEL LINNENBACH

(Schubertstr. 9, D-69226 Nussloch)

### Misguided copulation of *Rana temporaria* and *Salamandra salamandra* proved fatal.

At the 28.3.2000 I observed a male *Rana temporaria* clasping a female *Salamandra salamandra* to death.

**Key words:** *Rana temporaria*, *Salamandra salamandra*, misguided copulation.
